- 2) Select 'X12' and click on 'Request Credit Reports'

- 3) Select 'Prequal' or 'RMCR'. When requesting a RMCR, bureau selection is not necessary. Click on 'Auto' to export the file. After saving the 833 file, the login screen should appear. If not, double click on the AgentLink icon on the desktop.

- 4) After filling in your login name and password info, double click on the file that you want or select the file and click 'Order' to process the request.

- 5) Verify borrower's info is complete and correct including full name, age or DOB, and 24 months of address. Choose bureaus desired and click 'Order'

- 6) After the report is processed, the results will be displayed as in the following example.

From here, you can

- Request RMCR: The information will be automatically populated with information from borrower file, if RMCR is selected from Byte.
- Export** the liabilities to borrower file (This will **APPEND** liabilities to the borrower file, not replace or remove the existing ones)
- View** the credit report in HTML and PDF format.
- Express Print**, if you have the Express Print Module and Adobe Acrobat Reader 4.0 ready.
- Close** the window.

- 7) 'When requesting a RMCR', the following screen will appear. After completing the request, click 'Save' to confirm the request or click 'Cancel' to return to the borrower info screen. Remember when ordering a RMCR to fax a completed copy of the mortgage application to 800.775.5689. This is required to provide a disclosure of the applicants' liabilities and to provide authorization, which is often required when updated specific tradelines.
